

CORD KING TK-8

DEBRIS TUMBLER

Compact Cleaning

An Essential Part of your Firewood Setup

Highway Towable

STANDARD EQUIPMENT:

- Highway towable and portable
- Easy debris cleanout with a front-end loader or skid steer
- Innovative adjustable infeed conveyor adjusts for conveying firewood directly off a firewood processor or raising it up to use as a live floor hopper/feeder
- Axle clearance so it can be moved when there's a frozen pile of debris below it
- Hydraulic connection for separate offloading conveyor is standard

OPTIONAL EQUIPMENT:

- Available with an optional hydraulic powerpack or standard with plugs to power it via a firewood processor

PERFORMANCE:

- Cleans firewood more efficiently than disc cleaners due to the circular agitation of tumbling
