

Prevention & **A**wareness **P**rogram

Each year, 400,000 women in Canada receive an “abnormal” Pap test result. If left untreated, the “abnormal” cells of the cervix could develop into cancer.

JUST BECAUSE YOU FEEL NORMAL, DOESN'T MEAN EVERYTHING IS NORMAL.

Pap tests save lives. Get yours today!

**National Cervical Cancer Awareness Week
October 21 – 25, 2019**
